

eHealth Professionals Knowledge Network

Learning • Sharing • Connecting

Join this new learning space for eHealth professionals. eHealth professionals across the globe experience similar limitations and share a need for resources to overcome them. While there is a great variety of training resources available, they can be difficult to access, or not relevant enough.

Join by participating or contributing to any number of resources:

- Knowledge sharing activities
- Promoting existing global goods resources
- Cooperatively developing new training resources.

Previous Meetings

- **9 April 2024 - Requirements Practices**
(Recording)

We will hear from global partners on requirements in practice. Jembi Health Systems will share an overview of systems analysis and IntelliSOFT Consulting will talk about SMART guidelines practices and how these influence requirements practices. Following these topics there will be time for open discussion.

- **13 February 2024 - Introduction to Global Goods**
(Recording)

We will hear from application creators as they share about global goods and ways to best work with global goods. Bring your questions and thoughts about how to engage with global goods.
