

Pillars of Success

The eHealth Leaders Forum (eHLF) is a global forum for national digital health leaders to connect & learn from each other, as they work through the various challenges and opportunities related to building and operationalizing digital health strategies.

A Place to Communicate

A private WhatsApp community with both regional and global groups

Invitation only communication channels for networking, general discussions, announcements, and problem solving

Monthly Regional Video Conferences

Meetings held on a regular monthly basis hosted by regional organizations / leaders to address the specific needs of that region

Annual Regional In-Person Meetings

We aim to hold at least one annual regionally focused in-person meeting for all leaders in a given region, hosted by regional health informatics organizations to address the specific needs of each region

A Place to Share Country's Stories

Artifact Sharing • Governance Examples • Best Practices

Country Profiles

Profiles drafted by designated country representatives to share the state of country activities, artifacts, an overview of governance and all other things related to health information exchange.

A Place to Support One Another

Assistance Communicating Up • Educating eHLF Members to Understand HIE

HIE Advocacy Packet

We are drafting an overview document designed to help members have conversations with non-technical leaders, or any stakeholders, on the value and benefit of implementing national architecture & standards.

eHealth Leaders Advocacy Certification Course (Coming Soon)

Certification for eHealth Leaders to more confidently advocate for the implementation of OpenHIE Architecture & Standards.

Leadership is defined differently depending on national context.
