OHIE Steering Committee Recommendations

Recommendation		Details
Recommendation 1: Build Peer Implementation Support Approaches within Community	🟥	**WHY**: Countries supporting each other advances implementations and sets an expectation for the best ways for countries to contribute back to the larger community effort.
		WHERE:
Recommendation 2: Peer-Learning Forum for eHealth Leaders	🟨	**WHY :** The formation of a peer learning forum would provide a focused, safe space for non-technical information sharing around the implementation of health data sharing strategies.
		WHERE: Synergizes found with ISO in the CDC-TAP program. A new wing will be made in the community lead by RI and I-TECH
Recommendation 3: Build HIE Investment Value Proposition "Pitches"	🟥	**WHY** : Help Explain Investment Needed to Meet Health Delivery Goals
		WHERE:
Recommendation 4: Create Greater Awareness of Country HIE Implementation Progress	🟨	**WHY** : Reduce Disconnect Between Countries and Community
		WHERE: Process has been drafted on how to engage and gather information from partners on their implementation journey
