

# Home

## Welcome!

We want to make it as easy as possible for you to jump in and get engaged with OpenHIE activities so we encourage you to create an OpenHIE wiki user account.

### How to get started.

1. Create a user account by clicking the "**Sign Up**" button in the top right hand corner.
2. Once you have a user account **choose your profile picture** and update your profile.
3. The wiki is divided into several spaces. Please take a look around at all the different spaces and make sure the content you create is located in the appropriate space so others can find it more easily. If you need any help with this please contact [support@ohie.org](mailto:support@ohie.org).
4. Email is great for communication but not collaboration. Learn what features the wiki has to help us achieve both, [click here](#).

## Community Quick Links

We believe in transparency and encourage those interested in implementing and working with OpenHIE to join our community to receive and share knowledge around your experiences. Below are some quick links to get you started.

Where can I find a high-level description of how OpenHIE works? [OpenHIE Architecture](#)

Where can I follow conversations about what different groups are working? [Mailing Lists](#)

Where can I find OpenHIE implementation guides? [OpenHIE Planning and Implementation Guides](#)

Where can I find a list of OHIE reference technologies and info on them? [Reference Technologies](#)

Where can I find presentations given by OpenHIE community members? [Presentation Artifacts](#)
