Use Cases

[Aggregate Reporting](#) - PEPFAR is creating an HIE that can be used to report aggregate data to another HIE.

Workflows

[Aggregate Reporting](#)

HIE Sending aggregate reports uses these workflows:

- [Export Aggregate Data - V1.5](#)
- [Request Mechanism Update - 1.5](#)
- [Request Metadata Update for Sites - 1.5](#) (Subscribe to Site data from another system)
- [Send Requested Metadata - V1.5](#)

HIE Receiving aggregate reports uses these workflows:

- [Validate and Save Aggregate Data - V1.5](#)
- [Request Metadata Update for Sites - 1.5](#) (Subscribe to Site data from another system)
- [Send Requested Metadata - V1.5](#)
