

2013-07-11 FR Technical Meeting

When: 07/11/2013 at 11:00 AM EDT

Where: Google Hangout

Participants: Derek Ritz, Jorge Queipo, Ed Jezierski, Scott Teesdale, Martin Verzilli, Michael Kambenga, Mark Tucker

Recorded Video: <http://youtu.be/FliJCHMKfpM>

Agenda:

1. Open FRED API Github Issues (<https://github.com/facilityregistry/fred-api/issues?sort=updated&state=open>)
2. IHE Care Services Discover (CSD) Open Comment Period closing on July 18th (http://ihe.net/Technical_Framework/public_comment.cfm#IT)

Notes:

- Drafted a schema to provide the csd profile data from the facility registry
 1. There might be some info that CSD will ignore
 2. Things that CSD needs are there
 3. Is this designed to do anything more than to be a csd directory
 4. This a schema that you can take to a connect-a-thon
 5. Are the names and types the same, no but not required. He can write an XSLT so that in january it is ready
- Update on Tanzania
 1. Data specification, User Stories, Drafted Registry, User testing, training for ongoing support, scaling
 2. Is the data model and form design the same?
 3. Would it work in both?
