OpenHIE Reference Technologies

The purpose of this page is to highlight technologies that can support the OpenHIE Architecture and OpenHIE workflows. Please note:

- The community is moving toward validating parts of the OpenHIE Architecture Specification that can be supported with specific software. Once completed, this page will be updated to specify parts of the specification that are supported.
- The following software is not intended to be a complete or thorough list.
- There are also commercial offerings which may meet the the OpenHIE specification.
