OHIE23 Architecture Summit

Date

01 May 2023

DESCRIPTION

The Architecture Summit is a community wide event to discuss the focus for the coming years as it relates to the OpenHIE's framework. This session provides an open and interactive space for people to talk about OpenHIE's technical roadmap for the coming year and provide feedback and input used to drive community documentation that is useful to countries and implementers.

Goals are to discuss current FHIR use and the dream for FHIR use in OpenHIE. Come to the session to share your experience, learn from others and impact the future OpenHIE roadmap direction. Attendees will share:

- What is happening in countries regarding FHIR
- Current ways that FHIR is being supported and needs to move forward with FHIR
- Challenges countries are having with FHIR and how OpenHIE can help
