Global Event Calendar

If you are aware of other global events taking place now or in the future please add them to this list. This is **NOT** a complete list but we hope sharing information about events of interest to th Manage apps e HIE community will help people to get involved in important conversations and collaborate on projects. Due to the coronavirus some conferences and events have been canceled in 2020, see a list of events across international development (not just digital health).
