2014-06-26 OHIE-FR Meeting

When: 06/26/2014 at 11:00 AM EDT

Where: Google Hangout

Participants: Larry, Roger, Scott,

Recorded Video: http://youtu.be/DkWfgeTiwF0

Agenda:

For our agenda, here is what we had in mind for today.

- Burning Issues (We occasionally open up the meeting to allow anyone to bring their challenges and discuss them, today is one of those days!)
- Facility Registry Requirements Matrix (If we are low on burning issues then I have one I can propose around a requirements matrix we would like for our implementation guide)
- Implementation Updates

Notes:

Other Things

- Rogers Paper Update
    - Reviewing but still need Ed feedback on data models. How to insert into the doc.
- FR Tool Updates (Int & loc and Public use)
- TZ / RW / ZB Updates
- MFL Things
- Calendar Update

Larry - EMPI

- * Matching Algorithm
- * Codings
- -> Working call to set something up for TZ
- -> Multi-lingual?
- -> chronological
- -> Workflow

FHIR

- Informing the FRED API
- Standard set of rest calls
- Expressing searches
- A big deal is while IHE is soap, FHIR is rest oriented
