Agenda:

- Welcome and purpose of the meeting - Annah

- Overview of the SIMS Data Model in DATIM - Annah

- Overview of the ADX Standard - Vlad

- Sample SIMS ADX message Explained - Vlad

- Q&A

Minutes:

- Welcome and purpose of the meeting - Annah

- Discuss PEPFAR Data Exchange. Have dialouge and discussion on questions and concerns
- The call today will be specifically around SIMS
- We hold other calls; umbrella call, data import, SIMS
- This is the model we have arrived at around SIMS - Architecture-based approach to data exchange

- Overview of the SIMS Data Model in DATIM - Annah
  - Lon - Data type documents available? Data version control logs are available.
  - Question about the format of the date. YYYYMMDD? - SIMS date reported on day of collection
  - Lon - Size of integer field would be nice to have
  - Vilma - Some RESP's are numbered not bool
  - Would need to do a mapping betweeen the SIMS code and the DATIM field code
  - Vilma - There is a need to identify SNU levels

- Overview of the ADX Standard - Vlad
  - IHE ADX Message specification - https://ihe.net/uploadedFiles/Documents/QRPH/IHE_QRPH_Suppl_ADX_Rev1.0_PC_2015-05-29.pdf
  - DHIS2 Developer Guide, ADX information: https://www.dhis2.org/doc/snapshot/en/developer/html/ch01s13.html

- Sample SIMS ADX message Explained - Vlad
  - Q- Can you use UUIDs? A - Yes
  - Q - is there a question structure? - A- No, this is for aggregate data.
  - Data is for an org unit for a period for a specific mechanism
  - Q - How does this relate to the cover page and actual questions?
  - Might be helpful to have a cover page and show how the ADX message looks for that cover page.
  - Want to see data in the tool and in the message
  - ADX is moving towards import and export in the standard
  - No plans to desupport DXF2
  - Sample shown was designed to show structure, not a full message
  - Q - are the 5 groups shown required? A- yes
  - transmit date is in the header of the ADX
  - DHIS2 developers manual covers the response that will be received after processing
  - Q- What is the response like? - it will tell you that 8 were updated and one had an error

- Q&A

- AOB
  - Next SIMS call will be in December - information will be sent out to the mailing list and posted to the OpenHIE wiki - https://wiki.ohie.org/display/SUB/PEPFAR+Data+Exchange+Implementer+Community
  - Next PEPFAR-DEIC Umbrella call is on December 2nd @9am ET
  - Mark would like to hear if this SIMS call was a useful call and if there is any feedback on how we can improve our call
  - Lon - I think this call was useful. Do we have timelines for implementation by agencies?
  - Mark - Will be sending out information on how to access development update
  - Denise - mid-february timeline for development
  - What is the plan for January?
  - James - This is the first version of ADX and we will learn more as we use it.
