### Agenda:

- Welcome
- Data import cleaning process for Q1/Q2
- Update on the status of MER 2.0 results data elements
- Open discussion

### Minutes:

- Welcome

- Data import cleaning process for Q1/Q2
  - First time there has been a cleaning process in DATIM.
  - Requesting files one week prior to data entry
  - Providing a full week after the review to resolve any issues.
  - Expect separate files for data removal and replacement. Guidance has been provided.
  - New data.updated values should be submitted as a single file with a naming convention clearly referencing the file for update. Also a separate clearly marked file for deletes.
  - Clearly marked file for bulk data removal is also expected - this will require notice of intent before the file is sent.
- Update on the status of MER 2.0 results data elements
  - Dana shared that they are working through requirements gathering. Intending to have the data sets to the community by October.
  - Data elements list for Q4 is also in the requirements gathering phase. Thus forum will be used to provide updates as received.
- Open discussion
- Next week's call focused on importing SIMS data into DATIM
- **This call ended early at 9:28 AM**
