9. Developer | DevOps

Developer Resources

See How to develop OpenHIE

See Architecture Maturity Model (draft)

DevOps

- The DevOps Community will be providing strategy, leadership and coordination to support implementer use of OpenHIE. Specifically providing desired resources for things like:
  - Connection Tooling (i.e., connecting OpenMRS to OpenHIE)
  - Component Packaging
  - Documentation.
- DevOps will also be verifying integration as well as providing tools to demonstrate OpenHIE concepts.
