Attendees:

Maguette NDONG (PATH)

Keneth Musenge (CDC)

Evelyn Akello (METS)

Livingstone (Malawi)

Etherpad: https://notes.ohie.org/2018-08-01_Implementers_Experiences_Uganda

Notes:

- Landscape: Where are we?

- Pop around 42 million
- HIV : 6.2%
- 10participants from Uganda in this conference
- Just lauchn the eHealth Policy last March
- all HIS died at the pilot phase
- Country with over 200 eHealth apps,
- - HIS Vision:
 - want to make iEHR for all patints
 - HI patients available
- - Was done
 - Lauch eHealth Strat&Policy
 - Interoperability HIS assessment (M&E)
 - collaborations to suport system interoperability like CDC iLEad, Geeks Program
- - IN Progress
 - Adapt OpenHIE to their country
 - Impementing HFR
 - Developing EHR standards:
 - any guidelines for the systems
- - Interoperability roadmap
 - Establishing HIS, HIS governace and leadership
 - Pending: establishment of HIE components
 - Period of workplan: From 2018 to 2020:
 - Develop National information standards
 - Develop HIE :minimum dataset, MFI, CR UI, Registry
 - Support ICTs (power, Internet, HR) and facilitate communication

Next Steps:

- Uganda to adopt the WHO DIGITAL ATLAS to manage the different eHealth application
- Uganda to plan a visit to Malawi to learn from their experience implementing HIE
