

OpenHIE Reference Technologies

The purpose of this page is to highlight technologies that can support the [OpenHIE Architecture](#) and OpenHIE workflows. Please note:

- The community is moving toward validating parts of the [OpenHIE Architecture Specification](#) that can be supported with specific software. Once completed, this page will be updated to specify parts of the specification that are supported.
- The following software is not intended to be a complete or thorough list.
- There are also commercial offerings which may meet the the OpenHIE specification.
