

OHIE Terminology Services Content Questionnaire 2019

In the Fall of 2019 and Spring of 2020, the OHIE Terminology Services Community solicited responses from OHIE members and partners on a questionnaire regarding their use of standard terminologies. This was a follow-up to the study presented at AMIA in 2017. The attached spreadsheet summarizes the responses we have received to date. Abstracts of the questions themselves are available as comments in the column headers.

If you are interested in participating in this study, the questionnaire is available at https://www.surveymonkey.com/r/OHIE_Terminology_Services.

Country /Organization	Reporter	Req Terminologies	TS Plan	TS Group	Central Repo	OHIE Repo	Localized	Local Maps	Diagnoses	Procedures	Tests	Meds	Devices
