Call Information

When

COVID-19 Task Force calls has combined with the Case Surveillance + Indicator Extraction subcommunity which meets the **first and third Monday** of each month from **11am - 12pm Eastern Time**, regardless of whether standard or daylight saving time is being observed. *(see [other time zones](#)).
Note: Calls that are cancelled will not be rescheduled.

(For information about the **Case Surveillance + Indicator Extraction** subcommunity, please go [here](#).)

Description

The OpenHIE COVID-19 Taskforce began in April 2020 in response to the interoperability and data sharing needs of the global community and disbanded April 2022.

The endorsed Terms of Reference are:

- Identifying and collating information relating to data standards and exchange relevant to the Covid-19 response
- Identifying gaps in and establishing standards for data exchange priorities
- Provide documentation and guidance (to both the global good community as well as proprietary software tools) to improve adherence to these standards
- Ensure that rapidly deployed solutions can be integrated into the national digital health architectures

We welcome your participation and insights in this endeavor.
