Academy Live

Goal: Provide learning opportunity for those new to OpenHIE around standards-based approaches to health information and provide a foundation for participation at the OpenHIE Community Meeting (5-8 October 2021).

Material covered during OpenHIE Academy Live will include:

- Concepts of interoperability
- Function and application of the OpenHIE Architecture framework and its components
- Role of terminology and health data exchange standards

Recommended Pre-work:

1. Take the OpenHIE Academy course "Introductions to HIE" (25 min)
2. Watch Standards and interoperability video (13 minutes)

Exercise Materials

- OpenHIE Architecture Specification
- Scenario (See slide 63)
- **Sticky Note Boards (*Groups can find their boards below*)**

Group Board	Facilitators
Group 1 - White Board	• Carl Fourie, PATH / Digital Square • Shaun Grannis, Regenstrief Institute
Group 2 - White Board	• James Kariuki, CDC • Steven Wanyee, IntelliSOFT
Group 3 - White Board	• Carl Leitner, PATH / Digital Square • Chris Seebregts, Jembi • Paul Biondich, Regenstrief Institute
Group 4 - White Board	• Rajab Billy, Kuunika • Daniel Futerman, Jembi • Haftamu Kebede, Mekelle University
Group 5 - White Board	• Richard Stanley, IntraHealth International • Sovello Mgani, PATH / Digital Square • Samson Yohannes, Mekelle University
Group 6 - White Board	• Vladimer Shioshvili, ICF • Jenny Thompson, PATH / Digital Square • Joe Amlung, Regenstrief Institute
Group 7 - White Board	• Jon Payne, Global Connect • Ally Shaban, IntraHealth International • Tesfit Gebremeskel, Mekelle University

Links on names above will direct you to how you can direct message course facilitators on the OpenHIE community forum. Note: You will need to sign in or create an OpenHIE ID to post/message on discourse.

Directions on Certification - To be determined

Agenda

	Content	
Intro	• Welcome and Introduction to course facilitators • Introductions of group - one information sharing challenge you are facing or interested in	Jennifer E Shivers
Section 1	• 1 to 2 group sharing discussion • Introduction to HIE	Jennifer E Shivers
Section 2	• Standards-based Architecture • Architecture components needed to support a Use Case	Rajab Billy
Section 3	• Group work report out / Discussion • Introduction to interoperability	Daniel Futerman
Section 4	• Introduction to Standards • Terminology Standards • Workflows Message Standards	Joe Amlung Jonathan Payne
Section 5	• Introduction to group exercise (same case study, but add in data exchanges and document standards used for those workflows) ○ Add data exchanges with standards to the components identified • Group exercise • Group sharing / discussion with large group	Sovello Mgani

Section 6	• Wrap up and Questions
	  ○ Feedback
	  ○ Certification directions
