

2013-05-30 FR Technical Meeting

When: 5/30/13 at 11:00 AM EDT

Where: Google Hangout

Participants: Scott Teesdale, Matt Berg, Ed Jezierski, Derek Ritz, Jorge Queipo, Carl Leitner, Wendy Schultz, Martin Verzili

Recorded Video: <http://youtu.be/ekFrQ6TUy1Q>

Agenda:

1. An introduction and invitation to participate in informing IHE profile development related to facility registries. [IHE Github Issues](#)
2. Ongoing FRED API enhancements and issues as documented here: [FRED API Github Issues](#)

Minutes:

- Review intro to IHE and it's relation to the FR group. See here for [background information on IHE](#)
- Discussion of IHE profiles and existing API endpoints for FR and PR
- Review of IntraHealth experience with IHE. Overall has been a painless and easy process for the provider registry
- Follow up on process to review IHE profiles using github to document community feedback.
 - [Current IHE Issues](#)
- Integration with the HPD and CSD profiles
- Discussed the pre-supposition by IHE profiles that the CSD talks directly to a Manager
- Methods to create links and references to the provider registry. Drafted some basic pieces of what the connection would look like.
 - Some concern that this is not compatible with the pattern of csd
 - Ongoing Conversation: <https://github.com/facilityregistry/fred-api/issues/59>

Action Items:

1. Community is invited to provide review and discuss the IHE profiles for later input into the IHE process. Please feel free to add your own or jump in on the conversation.
 - a. Link: <https://github.com/facilityregistry/ihe>
2. Continue discussing ongoing topics related to the FRED API
 - a. Here: <https://github.com/facilityregistry/fred-api>
3. *** Be sure to "Watch" both sub-repositories to stay engaged in the conversation***
